EVOLVE PULSE MIG

NEXT GENERATION PULSE MIG

MIG • TIG • MMA

THE FUTURE IS HERE

The EVOLVE is an ultra-powerful, full-digital welding machine, designed for heavy industrial applications. Equipped with advanced ARM Cortex microprocessors, Silicon Carbide IGBTs, and cloud connectivity, it delivers unmatched control, efficiency, and welding performance.

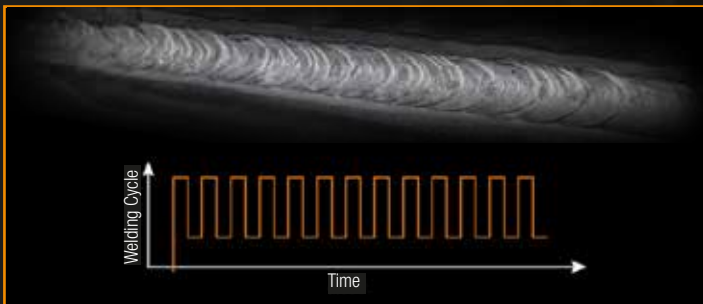

MODULAR ADD ONS

Futureproof your purchase with the EVOLVE PULSE MIG, with the option to add additional modules as you need them. These optional modules include an AC/DC TIG module and a Plasma Cutting module for all your future needs.

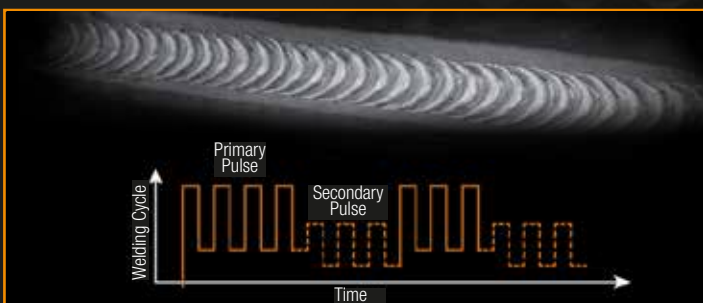

SINGLE PULSE MIG

A single pulse weld alternates between a peak and base current, which works to minimise the amount of heat input without compromising on any of the penetration. It's perfect for softer materials like aluminium. Pulse welding is also done by spray transfer, eliminating spatter and cutting your post-weld clean-up time.

DOUBLE PULSE MIG

A double pulse weld alternates between a peak current and two base currents, reducing the heat input of the weld even further than single pulse, while still maintaining all of the benefits. Because of the faster freezing puddle, your double pulse welds come out looking just like a stack of dimes.

ELIPSE® HALF-MASK P2 RESPIRATOR

The Elipse® Half-Mask P2 Respirator combines a particulate filter with an activated carbon cloth to provide a minimum 99.95% filtration against odours, dust, all types of fumes, oil and water mists and micro-organisms. It is designed to fit under most welding helmets and welding masks.

- Approved to AS/NZS 1716:2012 as a P2 Reusable Respirator, as the P3 filters are fitted on Half Mask.
- Latex and silicone-free, lightweight TPE face piece that is comfortable to wear for long periods of time.
- Low profile filters provide an unobstructed view.
- Compatible with other PPE safety products including visors and welding helmets.

\$30.00 excluding GST

WELDING FUME EXTRACTOR 230V SINGLE PHASE

Portable fume extraction system with moveable and flexible arm. Capable of filtering an area of up to 8 cubic metres. Provides easy & effective protection against harmful emissions of welding fumes and grinding dust. Internal collection tray for removal of particles and fitted with long-life filter element.

WARNING! WORKSAFE NEW ZEALAND

Prolonged exposure to welding fumes is a serious hazard to workers respiratory health.

Welding and hot cutting produce metal and fluxing fumes made up of toxic gases and very fine particles. Inhaling welding fumes can cause ill health.

- Acute bronchitis
- Airway irritation
- Occupational asthma
- Metal fume fever
- Pneumonitis
- COPD - Chronic obstructive pulmonary disease
- Cancers
- Pneumoconiosis

TIG WELDING FOOT CONTROL

ROBUST & SIMPLE DESIGN

The Xcel-Arc TIG Welding Foot Control is a convenient hands-free alternative for use on any TIG machine. This includes amperage control, allowing the welding current to be adjusted remotely from the welding machine during welding. The simple design makes installation and operation of the foot control effortless, and the sturdy metal construction guarantees durability.

The Xcel-Arc ARC LEAD ASSEMBLIES consists of an electrode holder and along with their appropriate leads, fully assembled and ready for use. The Xcel-Arc electrode holder is designed to hold electrodes firmly in 45°, 90° or 180° positions, to assist in various types of welding practice. The electrode holder has a heavy-duty, fully insulated handle for high conductivity, and improved cable connections for optimal performance and reliability.

- Gas & Gasless MIG
- Power Factor Correction (PFC)
- Spool Gun/ Push-Pull Gun Ready
- 4 Geared Wire Drive
- DC Lift Arc TIG
- Advanced MMA Features
- Smart Fan
- Foot Control Ready
- Compliant to AS/NZ 60974-1

Power Supply	240V - 1Ph
Duty Cycle @ 40°C	20% @ 250A, 60% @ 144A
Current Range MIG	30 - 250A
Current Range TIG	5 - 250A
Current Range MMA	20 - 220A
Weight	41.3Kg
Dimensions (mm)	900x480x760
